## HOW ARE HIRING ORGANIZATIONS USING SOCIAL TECHNOLOGY & MEDIA?

- We do not use social technologies for talent acquisition
- We use them on an ad hoc basis with no set strategy
- We use them only for select processes
- We have a formal strategy with clear goals and KPIs

# USE OF SOCIAL TECHNOLOGIES IN TALENT ACQUISITION

65% of organizations only use social technologies for talent acquisition on an ad hoc basis or for select processes, but the positive impact on talent acquisition goals and KPIs when social technologies are utilized is impressive.

# The Disconnect

- 70-80% of learning isn't in a classroom
- 85% of companies are using social to support learning initiatives
- Formats: discussion forums, expert directories, learner comments, social sharing, feeds, etc.

# Talent Management

PM is an annual check-the-box activity with a clearly defined start and end date.

Institutionalize PM as an ongoing process – not an annual activity with a beginning and an end.

PM is a top-down process;  
only the employee's  
manager provides input on  
what the employee's  
performance has looked  
like over the last year.

Engage peers and subordinates in providing performance feedback.

Managers are not held accountable to develop their employees and are certainly not incented or rewarded for doing so.

Hold managers  
accountable for acting as  
coaches to develop  
employee strengths.
